

Be it right or wrong.

Lead voc.

My baby's got the magic in her arms tonight
And I don't want to
Share this little secret with no-one
'cause though it's been so many years now
I still can't control the fear of
Loosing her someday – but I think she knows

And I – I didn't search in vain
Since she came along I would never feel strange again

**Be it right or wrong
be it much too strong
You are the only one that can turn my heart on
Be it everlasting
Don't make any changes suits me fine
You are my sun, my life
You make my inner light shine**

Oh how I need to be around someone like you
So real, so warm I
I don't think anyone can understand
This magnitude of love and life and
Despite the usual wrongs and rights it's
Quite enough for me an ordinary man

And – oh – my life would never be the same
Since she came along, I would never feel strange again

**Be it right or wrong
be it much too strong
You are the only one that can turn my heart on
Be it everlasting
Don't make any changes suits me fine
You are my sun, my life
You make my inner light shine**

So baby listen please to what I'm saying

GUITAR SOLO
